

BITTING BROS.

There's No Shoddy

In our Wood Brown Cheviot Suits. When you introduce a friend you stand sponsor for his character and to some extent you are responsible for him. When we introduced these suits we stood sponsor for them, but before we took this responsibility we satisfied ourselves that they were all right. That is why we know just what we are talking about when we say that there is no shoddy in them—they will bear the most critical inspection at the hands of the most competent expert in the land and you'll be asked to pay just as much for a second rate article as they will cost you, for we are selling them at less than half what merchant tailors would charge you. Come and see us and we will do you good in the way of wearing apparel.

REMEDIES and TREATMENT

FOR THE

Liquor and Opium Habit

Call on or address The Keeley Institute of Indian Territory, Oklahoma City, O. T.

DR. TERRILL, SPECIALIST.

The above is the cut of the instrument used by Dr. Terrill in the examination for Catarrh and all Nose and Throat diseases. It enables the doctor to show his patient the condition of the affected parts, and if needed treatment explaining its necessity. The doctor will guarantee a cure in every case of Catarrh, he treats. You can be treated at home, instruments mailed to you.

Dr. Terrill has just returned from Chicago, where he has been taking a course in the Post Graduate School, and also a special course in Electricity, the being the second course of the kind the doctor has taken within the last two years. The doctor is a qualified physician in the Southwest who has taken the only course in the United States in the latest scientific application.

DISEASES OF WOMEN—Dr. Terrill has made diseases of Women a specialty for the past twenty years, and has all the latest instruments, Batteries, Electrical appliances, etc. for their treatment, including Fibroid Tumors, Leucorrhoea, Displacements, Enlargements, Protrusions, Irregular or Profuse Menstruation, etc.

NERVOUS DISORDERS—Dr. Terrill wishes to call the attention of those suffering from Nervous Diseases, Paralysis, Spasms, Prostration, Seminal Discharges, etc. to the wonderful cure that can be derived from Electricity when scientifically applied, and desires to state that he fully realizes the power and value of this cure, and positively guarantees a cure in every case.

The doctor has the four different batteries used in the treatment of these diseases, also a battery for Catarrh and a battery for the treatment of the same.

ALL CHRONIC DISEASES—Dr. Terrill has treated thousands of cases of Chronic Diseases, and has a permanent cure for the same.

Dr. Terrill's success is based upon facts. His practical experience, backed by a long and successful career, has enabled him to cure every case of the above diseases.

Examination and consultation free. Correspondence will receive prompt attention. Twenty furnished rooms for the accommodation of patients from a distance, at Wichita, Kan.

See young and middle-aged men.

A SURE CURE.

It is well known that Catarrh of the bladder is a disease which is often cured by the use of the instrument used by Dr. Terrill.

A Big Gun.

SANTIAGO, Chile, Jan. 23.—It was learned today that the question at issue between Chile and the United States has assumed a more acute phase. This information is to the effect that the Chilean government has received from the United States an ultimatum, which, in the strongest possible terms, states that diplomatic relations between the two countries will be severed unless the Chilean government makes immediate reparations for the attack by the mob upon the Baltimore sailors in Valparaiso, and that it make an apology for the attack. The ultimatum concludes with the statement that the United States will tolerate no further delay on the part of Chile in answering the demands of the American government.

AT WASHINGTON.

WASHINGTON, Jan. 23.—Although no direct official statement can be obtained here, it is nevertheless learned tonight that the Associated Press dispatch from Santiago, reporting the nature of the communication just sent by this government to Chile, is, in the main, correct, though it conveys much less diplomatic terms than the original and going beyond it in one particular of importance. The immediate and impending cause of sending this communication seems to be the receipt by Secretary Blaine, through Minister Montt, of a polite announcement from the Chilean government, that Minister Egan is not persona grata, but, on the contrary, is persona non grata, in the estimation of the Chilean government.

It was not considered proper or desirable to comply with this suggestion, which was entirely unexpected, and in fact created great surprise. It was, however, determined that the controversy should be brought to a decisive point by inviting Chile to choose between two alternatives, namely: To promptly withdraw the offensive Matia circular, and also to make reparations to the victims (or families of the victims) of the Valparaiso mob; or, in case of her refusal to acquiesce in these demands, to understand that diplomatic relations between the United States and Chile must entirely and indefinitely cease. No demand that she make an apology for these attacks was included in the communication thus sent; for the reason, it is understood, that Chile has already made to this government a formal disclaimer of sympathy with or complicity in the deplorable occurrence of last October, and has expressed deep regret for it.

There is good reason to believe that all that is contemplated by this government in the event of a possible refusal by Chile to comply with these demands is simply the severance of diplomatic relations, and the danger of war is by no means increased by the step now taken. On the contrary, it is believed that no more serious results would follow the cessation of diplomatic intercourse with Chile than have followed similar interruptions of such relations with other countries in the past. It would merely be an emphasized expression of the conviction on the part of the United States that Chile has acted badly, and that she owes suitable reparation, this country desires no further intercourse or relations of any kind.

It is understood that this government was not only surprised, but also disappointed by the receipt of the suggestion for Minister Egan's recall, in view of the fact that a settlement of the long pending diplomatic controversy upon the existing lines seemed to be progressing favorably, and there was no apparent reason why objection to Egan should be made at this late day. There is good reason to believe also that Minister Montt is greatly disappointed by this suggestion, and that he desires to end his earnest efforts to bring about an amicable adjustment by the usual diplomatic methods.

SENATOR MORGAN'S VIEW.

Senator Morgan, the head of the Democratic minority on the Senate Foreign Relations committee, and recognized as one of the best informed men in Washington on diplomatic affairs, in the course of a conversation with the Associated Press, stated that Minister Egan's recall had been requested, said:

"The two treaties we had with Chile were terminated, and unless it be some little extraneous matter, we have no treaty with Chile, but deal with that government under the principles of international law. Now this would be a good opportunity to send some great American down there, whose name would carry with it dignity and authority—such a man as Edmunds, for instance, an ambassador to that government, for the purpose of negotiating a treaty and looking over the field. That would be no offense to Mr. Egan. An ambassador is sent to do a particular thing; to adjust affairs and to arrange relations between a minister accredited to a power, and the government of that power. It would be a fine opportunity for the government to show its desire to do justice to Egan, to Chile and to all four hundred Chilean sailors. The negotiations there would be peace and the absence of irritation in our country and in Chile too."

It was reported that Chile had requested Minister Egan's recall, and a rumor connected with this request the statement that Chile had intimated a willingness to apologize if Mr. Egan were recalled. Senator Morgan was asked what were the precedents in such cases. He said: "If a foreign government, for any reason, and the reason even not be stated, desires a minister's recall, all that is necessary is to let it be known. Such a request merely notifies a minister that he is no longer acceptable representative of our government at that court, and he is recalled. The British government did the same thing in the case of Lord Salisbury. When it might, under some circumstances, be considered that a government in asking a minister's recall did not want any further intercourse with it, but in the case of the government would do themselves the

justice to say so. If it were merely that a particular person's recall was requested, it would simply be significant of some not to hold intercourse through the agency of a person who was unacceptable. "But," added Senator Morgan, "the apology ought not to be made on the recall of Mr. Egan. If Minister Egan be not an acceptable person, they should say so, and would only have to say so to secure his recall. The apology ought not to depend on his recall. They have a right to have him recalled independent of the apology, if they are going to make it."

NATIONAL GUARD.

There was considerable gossip on the streets tonight, as to how this country could increase its fighting strength in the event of trouble with Chile, and especially with reference to the national guard of the national guard of the states. The president can call on the entire national guard to repel invasion, and he may do almost the same thing to suppress an insurrection in any of the states, the only exception being the militia of the disturbed state. But when the service to be rendered is in other lands, then it would be necessary to call for volunteers, and, of course, all such from the ranks of the national guard would receive preference. In that case they would leave the national guard and enlist in the regular army.

A prominent officer of the national guard of the District of Columbia, who has made a special study of the subject, summed up the situation tonight in the following words:

"Should there be war with Chile, or with any other power, the value of the national guard would at once be apparent. In round numbers there are 110,000 men, and at least 30 is contained in a state volunteer for service abroad. This would mean that an expeditionary force would be composed largely of men who had received special training in the use of their arms in the field immediately. But the national guard's usefulness would be by no means at that point. The demand for volunteers would bring to the front a vast number of raw material, and the national guard of officers would be the best men to use in instructing the recruits."

The Chilean minister, Senator Montt, today had a conference with Secretary Blaine, at the latter's residence, which lasted fully two hours. Neither would say anything regarding the conference.

MERELY A HINT.

WASHINGTON, Jan. 23.—It is stated tonight that the reported demand for the recall of Minister Egan is not really a demand. It is merely a hint to the president that the minister is persona non grata in Chile, and that negotiations would proceed more smoothly if he were out of the way. It is contained in a note which was sent from Santiago six weeks ago, but has been received here only within the past three days. Our government will pay no attention to it until after Chile has given satisfaction for her offenses against the United States. After that Mr. Egan will be recalled with honor.

RUMORS AND GOSPEL.

NEW YORK, Jan. 23.—A Washington special says:

"Russell Harrison while at the navy department today stated that he had seen some important news regarding the Chilean controversy that had not been made public. He was not at liberty to say what this news was, but he was very positive for believing that it meant that the president or Secretary Blaine sent a cable to President Montt, saying that Chile must make haste in answering the demands of the United States."

It is now reported that Senator Montt has positive and complete assurances that Chile is preparing and will immediately forward for Senator Montt to present to the United States a comprehensive and full apology, and a promise of reparation. It is understood that the president is to bring this document, but Senator Montt was instructed to officially make known the fact to the president.

The report informed on good authority that the demand of Chile for the recall of Minister Egan will be granted at once.

Secretary Tracy is firmly convinced that at least a show of force will be necessary to bring Chile to terms. He contemplates a naval demonstration in the immediate vicinity of Valparaiso, participated in by twelve war vessels, to be under the command of Admiral Gherard. The presence of these ships, he believes, will have a sobering effect on the Chilean diplomats. Among the vessels will be the Philadelphia, the Chicago, the Charleston, the Baltimore, the San Francisco, the Boston, the Atlanta, the Yorktown, the Concord and the Bennington. Every preparation is being made for this demonstration, and for the hostilities that will follow, if necessary. Great quantities of coal are being purchased and stored where the United States can get it wherever it is wanted, and the department is giving special attention to the problem of coaling at sea.

The ultimatum of Thursday having sufficiently defined the attitude of the United States in the Chilean difficulty, the president can now appropriately send the diplomatic correspondence to congress and let the country judge of the justice of the demand upon Chile. It is generally expected that the correspondence will go to the capital on Monday. It is the belief that the president will give a clear and precise summary of the situation and of the correspondence, and asking an indemnity and the withdrawal of Minister Matia's insults."

PHILADELPHIA, Jan. 23.—The Inman Blue figure, City of Philadelphia, which sailed under foreign colors but owned by American citizens, which is believed in well informed circles, be chartered by the United States within a short time. These steamers can be demobilized by act of congress at short notice, if necessary, and it is even hinted that such a bill has already been prepared by the house committee on foreign affairs.

SAN FRANCISCO, Jan. 23.—A dispatch from the first gun of its kind sent out by the government for the new navy, and designed for the coast defense vessel Monterey, arrived in this city today from Washington. The attendants who accompanied the gun stated that it attracted great attention on its tour across the coast.
